Surveyor

Instrument

Compact handwritten capture sheet for the remaining shell survey. Use the wide Notes fields for photographs, uncertainty, unusual endpoints, repeat readings, obstructions, casing comments, surface descriptions and other exceptions.

Brief field guidance

- Record the stated node-to-node measurements.
- Add useful supplemental measurements as required.
- Describe unusual endpoints clearly.
- Use Notes for photographs, uncertainty and exceptions.
- Do not invent concealed geometry.

General field notes

Planned measurements - Room B and WC

Room B

Record mm; use Notes for all context and exceptions

ID	Start node	End node	Value (mm)	Notes
BASE-B-01	B0	D3-BL
